In June, eight people associated with the movement for Palestine at the University of Michigan were arrested by the FBI in early morning raids of their homes. The raids were conducted in coordination with AAPD, Ypsi PD, and U-M Police. Four more activists were indicted in late October. The 12 defendants have been charged by the DOJ on multiple counts of conspiracy to transmit a threat, a federal felony. They face decades in prison.

In the face of ongoing genocide in Gaza, UM refuses to sever its financial and institutional ties to Israel. These charges are the latest effort to crush the movement for divestment and repress local Palestine organizing. Stand with the Michigan 12 for a free Palestine.
